INNOVATIONS FOR LIVING™

Home sweet home.

It's the place where you want to feel the most comfortable. Safe. Protected. But no matter how much you love your house, it seems the work is never completely done. And if purchasing a new roof is on your to-do list, it may seem like a daunting task.

But you don't have to worry about it anymore. We're here to help.

You can feel confident about choosing our roofing products—Owens Corning has been a recognized leader in the building materials industry for over 65 years. We're known for making homes more comfortable, beautiful and durable. And it's likely you've invited our mascot, The Pink Panther,™ into your home already—our building products and famous PINK Insulation have been used in millions of homes across the country.

Owens Corning and your contractor can make this a positive experience—an opportunity, really. This is your chance to choose a roof that not only has outstanding performance, but also has exceptional beauty. One that can transform the look of your entire home. So for years to come, you'll feel great every time you pull in the driveway.

Safe. Protected. Home.

ASTM D 3462	ASTM D 3018, Type 1
ASTM E 108, Class A Fire	UL 790, Class A
ASTM D 3161, Class F Wind	CSA 123.5

In the coastal regions of California, which tend to have high levels of salt in the atmosphere, copper or non-metallic gutters such as vinyl are recommended for use with algae resistant (AR) shingles. Aluminum gutters or aluminum components without corrosion protection are not recommended. This is because rain or dew runoff from AR shingles (which contain trace amounts of copper) can cause gutter or flashing corrosion.

* See actual warranty for complete details, limitations and requirements.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

The essentials for a healthy roofing system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. Owens Corning Roofing Essentials™ Accessory Products work with our shingles to make up a roofing system that helps provide maximum durability for your roof. And the most protection for your home.

- a VentSure® Ventilation Products.** Help protect a roof from premature failure by helping remove heat and moisture from the attic. 
- b PINK FIBERGLAS™ Blown-In Insulation.** Tiny air pockets trapped in the insulation resist the passage of heat flow.
- c Owens Corning™ Hip & Ridge Shingles.** Help protect the ridge vent and add an attractive, finished look to a roof's hips and ridges.
- d Owens Corning™ Shingles.** Add durable beauty to a home. Shingles are the first line of defense against the elements.
- e Owens Corning™ Underlayment Products.** Add an extra layer of protection between the shingles and the roof deck to help prevent damage from wind-driven rain.
- f WeatherLock® Self-Sealing Ice & Water Barrier Products.** Help guard vulnerable areas where water can do the most damage to a roof: eaves, valleys, dormers and skylights.
- g WoodStart® Starter Shingles.** The first step in the proper installation of shingles.
- h RapidFlow™ Gutter Drainage Protection.** Keeps leaves and other debris from clogging gutters, while allowing water to flow freely off of the roof and through gutters.
- i Undereave Ventilation Products.** Help prevent moisture buildup in the attic by working with ridge vents to keep air moving.
